MAGIC SWITCH CHROMA
Remote control settings

0 HOW TO USE THE REMOTE CONTROL

After unlocking, the red LED flashes and the sensor can be adjusted by remote control.

If the red LED flashes quickly after unlocking, you need to enter an access code from 1 to 4 digits. If you do not know the access code, **cut and restore the power supply**. During 1 minute, you can access the sensor without introducing any access code.
To end an adjustment session, always lock the sensor.

SAVING AN ACCESS CODE

The access code is recommended for sensors installed close to each other.
DELETING AN ACCESS CODE

Enter the existing code
